RESOLUTE TECHNOLOGIES

Resolute Technologies **is a Chicago-based IT consulting and recruiting firm that helps businesses increase bottom-line results through the successful deployment of software-driven technologies, strategies, and teams.**

Since 1998, we have built a respected reputation as trusted advisors delivering and supporting SAP initiatives, application development, and business intelligence solutions. We closely collaborate with our clients to align technology in support of overall business objectives.

KEY DIFFERENTIATORS

Independent Third Party – Our consultants only have one agenda—to be an internal champion for your company

Quality is Key - Our consultants are experts in their respective fields, and we pride ourselves on providing niche skill-sets

Proprietary Profiling Program - "Friends of Resolute" includes more than 3000 of the most highly qualified consultants in the country

Cost Advantage – You receive the same highly-skilled individuals that you would receive from premier providers such as SAP, PwC, Capgemini, etc, but at a more competitive rate

Rapid Response Time - We work proactively to ensure minimal downtime for your business

Intense Qualification - We invest substantially more time than would be considered "industry standard" to qualify and understand the professionals we represent

Tailored Engagements - We offer a full complement of flexible IT talent management services, so you can select the right one to meet your goals

80% of our business is providing consultants, while 20% is permanent placement

Industry Expertise:
- Manufacturing
- Technology Providers
- Financial Services
- Healthcare
- Wholesale

Services Offered:
- SAP Consulting
- Consulting and Recruiting
- SAP Delivery and Support
- Application Development
- Business Intelligence/Big Data

Partner with Resolute for:
- A single resource or an entire team
- 1 - 100 consultants to work under your direction and management
- Project outsourcing: onsite or offsite
- Ability to dynamically scale highly-skilled information technology workforce to meet ever changing business demands

MADE IN THE USA

OUR RECRUITING PROCESS

1 While being cost effective, Resolute focuses on deploying quality consultants over quantity. We are not a body shop.

2 Our recruiters employ our proprietary database of pre-screened, qualified candidates sorted by skill sets, experience levels, and locations.

3 We are accustomed to working directly with hiring managers or complementing internal recruiting staff.

4 We have extended conversations regarding the potential optimal fit for all parties. Anyone presented to you has been introduced to the opportunity through multiple conversations and email communications, which include an exclusive right-to-represent.

"Resolute asks questions and takes the time to understand my business needs and objectives. They are absolutely dedicated to the success of my initiatives."

-- Director, Global Information Systems
